

Attorney's Docket: 2003DE404Application Number 10/769,963Filed 02/02/2004Response to Office Action dated 10/01/2004

Please replace paragraph [00045] with the following paragraph:

[00045] The enzymes optionally present in the compositions according to the invention include proteases, amylases, pullulanases, cellulases, cutinases and/or lipases, for example proteases such as BLAP[®], Optimase[®], Opticlean[®], Maxacal[®], Maxapem[®], Durazym[®], Purafect[®] OxP, Esperase[®] and/or Savinase[®], amylases such as Termamyl[®], Amylase-LT, Maxamyl[®], Duramyl[®], Purafectel OxAm, cellulases such as Celluzyme[®], Carezyme[®], K-AC[®] and/or the cellulases known from international patent applications WO 96/34108 and WO 96/34092 and/or lipases, such as Lipolase[®], Lipomax[®], Lumafast[®] and/or Lipozym[®]. The enzymes used can, as described, for example, in international patent applications ~~WO 92111347~~ WO 9211347 or WO 94/23005, be adsorbed to carrier substances and/or embedded in coating substances in order to protect them from premature deactivation. They are present in washing and cleaning compositions according to the invention preferably in amounts of up to 10% by weight, in particular from 0.05 to 5% by weight, particular preference being given to using enzymes stabilized against oxidative degradation.
